ABOUT NEVEREST EQUIPMENT COMPANY

Quality, Value, and Customer Service

Neverest Equipment Company is committed to providing the highest quality equipment to the municipal and contractor pipeline maintenance markets.

To insure our goal of quality, value, and customer service Neverest has partnered with the fastest growing and most innovative manufacturers in the industry. Some of our brands include:

- Vacall
- EnviroSight
- John Bean
- Southland Tool Mfg
- KWMI
- GPM / Sewer Duck
- GfG Instrumentation
- Nozzteq

Dominate the Underground!

Envirosight

your partner

in pipeline inspection technology.

Specializing in underground infrastructure, pipeline and confined space inspection, Envirosight is a full service manufacturer of manhole cameras, zoom survey cameras, robotic crawlers, small pipe push cameras, documentation software, inspection vehicles and in-line robotic pipe cutters. Customers depend on Envirosight for training and support, and for the assurance that comes from the industry's broadest network of expert regional sales and service partners.

VACALL™

NozzTeq®
Taking Science To The Sewer®

Taking Science To The Sewer®

Nozzteq Sewer Nozzles and Cutters

Clean sewers better, faster, with fewer passes and less fuel; that's what science is for! NozzTeq sewer nozzles and sewer cutters are the best engineered sewer equipment available; we have been first-to-market with truly innovative equipment that effectively channels the jetting power of today's trucks, and our unique, patented nozzles and cutters solve real problems for private and municipal sewer maintenance professionals.

BL Swiper™

Your Blown Toilet Solution!

The Lumberjack®
Root Cutter

The C-Ray™
Culvert Cleaning

The Multi-Global™
Penetrating Nozzle

The Hammerhead™
Everyday Cleaning Nozzle

The Paikert™
Impact Cutter

The Spinner™
Grease Nozzle

AllJetVac Series combination sewer cleaner models use a positive displacement blower system, setting the industry standard for high performance and reliability.

The vacuum and jetting systems are powered by a chassis engine, enabling municipalities and contractors to open clogged sewer lines and remove debris while also reducing fuel consumption and routine engine service cost and downtime.

VACALL™

AllJetVac

Your Partner in Pipeline Inspection Technology

Specializing in underground infrastructure, pipeline and confined space inspection, EnviroSight is a full service manufacturer of manhole cameras, zoom survey cameras, robotic crawlers, small pipe push cameras, documentation software, inspection vehicles and in-line robotic pipe cutters.

The Power of One.

ROVER X is the one system that lets you do everything—control inspections, view and record digital video, log observations, generate reports, and link directly to asset-management software. All this capability is packed into a simple three-piece layout, with no CCU or other components to clutter your truck.

ROVER X

VeriSight™ PRO

VeriSight Pro – Digital Push Camera

VeriSight Pro's digital interface displays real-time inspection footage on an 8" LCD, records up to 90 hours of inspection video to internal memory, and allows an operator to enter observation data for upload directly to WinCan. An intuitive, customizable interface grants the ability to zoom 3X on live or recorded video, capture still images from live or recorded video, configure the 16-page text writer, browse thumbnail galleries, and select among several available languages.

jetscan

Jetscan – Stop Jetting Blind

Whether you need to identify a blockage on an emergency call-out, determine what tool to use, or just view what you're up against during routine cleaning—JetScan is the quick, easy way to see what you're jetting. It's affordable enough to put on every cleaning truck, yet captures valuable HD footage of pipe condition that can be viewed moments after inspection on a tablet.

Solutions to Sewer Cleaning through:

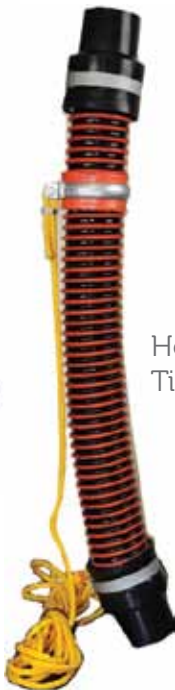

Concept – Design – Production

We are the premier supplier of an innovative line of sewer rodding tools, jetting and vacuum accessories, manhole traps, extraction tools, and accessories.
